

Self-Guided Attraction Tours of Mackinac Island's top points of interest!

Great for families and team building activities, your self-guided bike tour (red route) is a fun, safe riding adventure to all of the island's top attractions and scenic lookouts. Suitable for all ages and riding abilities, this adventurous tour only travels well marked, paved trails.

Your tour covers approximately 3 miles and can be completed at a leisurely pace within 2-1/2 hours, including time for photo opportunities and restroom breaks along the way. Once you've completed the loop, simply ride back to our bike shop, or feel free to continue exploring the island and historic downtown area.

We recommend our 4 hour half day rental which gives you plenty of time to complete the self guided tour, stop and visit area attractions, and see all of Mackinac Island's exciting points of interest.

Mackinac Island Bike Shop is located on Main Street next to Shepler's Ferry Dock. Look for our red and white striped bike corral awnings.

No reservations necessary. Self-Guided Attraction Tours can be taken anytime of the day.

The M-185 Perimeter Tour

Bike the only highway in America where no cars are allowed

The M-185 Perimeter Tour is an eight mile state highway that loops around Mackinac Island's shoreline. From start to finish, the flat, smooth asphalt road places you right between dramatic forestry and the rocky shores of Lake Michigan and Lake Huron with majestic views of their deep blue waters.

© Dave & Les Jacobs / Corbis

You'll enjoy pristine air and the tranquility of the island at your own pace, as you ride past incredible limestone formations, trickling island streams, and numerous historic points of interest.

Suitable for all ages and riding abilities, this adventurous perimeter tour (red route on map) can be completed at a leisurely pace within 1-1/2 hours, including time for photo opportunities and restroom breaks along the way.

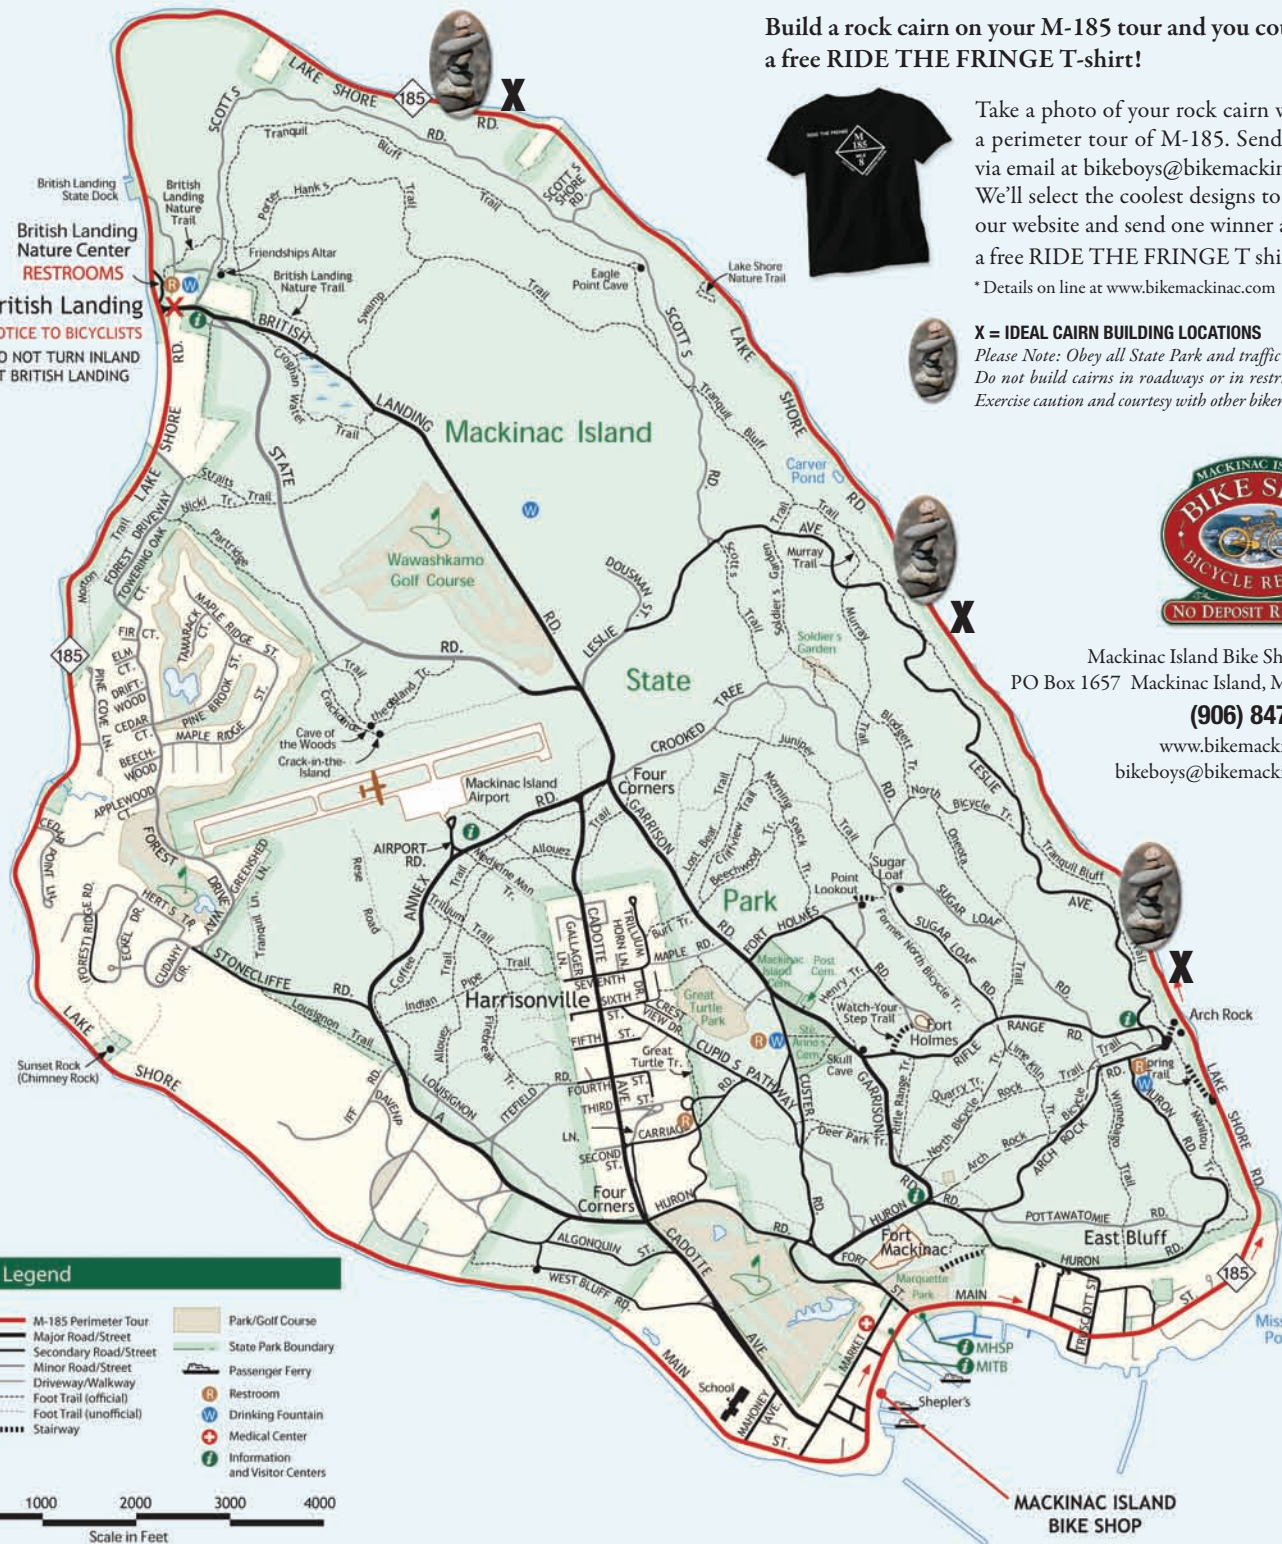

Build a rock cairn while on your M-185 Perimeter Tour

Rock cairns are small mounds of stones and pebbles built to mark biking and hiking trails, as a memorial to having been somewhere, or as a simple art form. Cairns can be found all over the world, from alpine regions, to barren desert and tundra, as well as coastlines.

It is traditional for each person passing by a cairn to add a stone, as a small bit of maintenance to counteract the effects of wind and weather. Often the habit is to only add to the top, and to use a smaller stone than the previous top stone, resulting in a precarious stack of tiny pebbles.

While on your M-185 perimeter tour, express yourself with your own rock cairn. Take a photo of your cairn and share it with us. We'll post the coolest looking cairns on our website and send the best designs a free RIDE THE FRINGE T-shirt!
